

Remanufacture & Save!

SIGNIFICANT SAVINGS COMPARED TO PURCHASING NEW

WHY REMANUFACTURE?

- Worn pump is returned to **like-new** condition & performance
- Your remanufactured pump carries a full 1 year **factory warranty**
- All remanufactured pumps are **factory tested**
- **Save big** compared to purchasing an entirely new pump
- Pumps can be remanufactured up to **four times**, depending on model & wear

WHAT YOU GET:

- NEW ROTORS
- NEW BEARINGS
- NEW SEAL COMPONENTS
- NEW SHAFTS
- NEW GEARS

Wright Flow Technologies offers remanufacturing services for Wright Flow TRA10 & TRA20 Series pumps, as well as upgrading Waukesha® Universal 1 & 2 Series pumps.

ADVANTAGES:

- Economical alternative to buying a new replacement pump
- One-piece stainless steel or 17-4 PH steel shafts
- Stainless steel bearing retainers
- Competitive deliveries
- Pump can be remanufactured up to four times, depending on model and wear
- Serial number allows traceability of rotor dimension oversize
- All pumps tested and certified before leaving the facility
- Full 1 year factory warranty

THE PROCESS:

- Pump is disassembled & evaluated
- Pump body & cover are machined to a hygienic surface - restoring tolerances & regaining flow level
- Pump body & cover are polished
- Gearcase is sandblasted & recoated
- All internal gearbox parts are replaced, including shafts, bearings, gears & seal components
- New rotors are installed, matching the oversize dimension of the machined body
- Pump is tested for performance
